

# The Developing Child Zone

## **Centralised training:**

### **The Unique Child - Early Childhood Development (Cognitive Development) Parts 1 and 2**

#### **KEEP 2 (New and Established practitioners)**

##### **Description:**

To explore the theory behind Child Development, focussing upon cognitive development. To link development to the Early Years Foundation Stage.

##### **Outcomes – you will have:**

- Gained an understanding of the contributions to early child development of significant theorists
- Gained a deeper appreciation of the development of young children in the main areas of learning

**You must attend both sessions of this course**

### **Attachment theory**

#### **KEEP 1,2,5,6**

##### **Description:**

To explore attachment theory, what it is and how important secure attachment is within the early years.

##### **Outcomes – you will have:**

- Reflected upon the theory of attachment and the impact of secure attachment upon life long learning
- Considered ways in which to promote secure attachment for children within your setting
